Stephanie, My Dear Friend, I was waiting on you to return back to work in November. I am truly going to miss you! We had so many personal conversations about life, our families and things going on at work. Every morning at 7:15am you would come in to work and we would laugh at something you said. Your infectious laughter would light up our department. We would fill each other in on what was going on with us. We prayed each other through the difficult days a many of days. No matter what was going on you would always say that "You were blessed and highly favored! God has gained another Angel to watch over us. Stephanie and I worked together at Texas Children's Hospital for many, many years. While I did my best to take care of children Stephanie took care of me, not just as a doctor but as a fellow human being. She was kind, supportive and diligent and always had my back. I shall always be in her debt and I will never forget her. Requiem in pacem.
